Subject Index

Aerobic fitness. *See* **Physical fitness**

Age factors
- aging, cardiovascular function, and endurance exercise: a review of the literature (Green Crouse) 1993;2:299 (State-of-the-art review)
- cross-sectional study of age-related musculoskeletal and physiological changes in soccer players (McHugh et al) 1993;2:261 (Original research)

Anaerobic exercise
- anaerobic testing and evaluation (Gleim) 1993;2:27 (State-of-the-art review)
- evaluation of anaerobic performance (Bassett) 1993;2:5 (Editorial)

Ankle
- basketball injuries to the ankle (Lowe) 1993;2:247 (State-of-the-art review)

Anorexiants. *See* **Appetite depressants**

Appetite depressants
- medically supervised weight loss (Lucas et al) 1993;2:284 (State-of-the-art review)

Arthroscopy
- arthroscopic shoulder stabilization (Pagnani and Altchek) 1993;2:252 (State-of-the-art review)

Asthma
- response to progressive exercise in patients with cystic fibrosis and asthma (Inbar et al) 1993;2:55 (Original research)

Atherosclerosis
- prediction models for two measures of atherosclerosis from serum lipids of exercised and sedentary rabbits (Westerfield et al) 1993;2:213 (Original research)

Athletics. *See* **Sports**

Automobile driving
- safe driving (Pitts) 1993;2:119 (Letter)

Basketball
- basketball injuries to the ankle (Lowe) 1993;2:247 (State-of-the-art review)

Biomechanics
- podiatric biomechanics: an integral part of evaluating and treating the athlete (Kirby) 1993;2:196 (State-of-the-art review)

Bone density
- effect of boron supplementation on bone mineral density and hormonal status in college female athletes (Volpe et al) 1993;2:323 (Original research)

Book reviews
- *ACSM's Guidelines for the Team Physician*, edited by Cantu and Micheli (Levy) 1993;2:117
- *Advances in Sport Psychology*, edited by Horn (Brustad) 1993;2:281
- *The Child's Foot and Ankle*, by Drennan (Micheli) 1993;2:280
- *Extraarticular Reconstruction in the Anterior Cruciate Ligament Deficient Knee*, edited by Pearl and Bergfeld (Richmond) 1993;2:233

The Fun of Fitness: A Handbook for the Senior Class, by Perkins-Carpenter (Hall) 1993;2:232
Handbook of Pediatric Nutrition, by Queen and Lang (Howell) 1993;2:331
Health Fitness Instructor's Handbook, by Howley and Franks (MacConnie) 1993;2:116
How to Prevent Falls: A Comprehensive Guide to Better Balance, by Perkins-Carpenter (Hall) 1993;2:177
Nutrition in Exercise and Sport Series: Exercise and Disease, edited by Watson and Eisinger (Ubbes) 1993;2:332

Boron
effect of boron supplementation on bone mineral density and hormonal status in college female athletes (Volpe et al) 1993;2:323 (Original research)

Caloric intake
dichotomous dining is a major food trend of the 1990s (Morris) 1993;2:239 (State-of-the-art review)
Fruit 'n' fudge (Stare and Witschi) 1993;2:237 (Editorial)

Carbohydrates
role of carbohydrate in the diabetes diet (Wolever and Josse) 1993;2:84 (State-of-the-art review)

Cardiorespiratory fitness
cardiovascular disease risk factors and cardiorespiratory fitness: assessing the relationship in the field with the step test (McKenney et al) 1993;2:100 (Original research)

Cardiovascular diseases
cardiovascular disease risk factors and cardiorespiratory fitness: assessing the relationship in the field with the step test (McKenney et al) 1993;2:100 (Original research)
cardiovascular risk reduction in a self-taught self-administered weight-loss program called the nondiet diet (Miller et al) 1993;2:218 (Original research)
exercise prescription: necessary and not evil (Munnings) 1993;2:112 (Freelance article)

Cardiovascular system
aging, cardiovascular function, and endurance exercise: a review of the literature (Green and Crouse) 1993;2:299 (State-of-the-art review)

Caregivers
Health consequences of caregiver stress (Wright et al) 1993;2:181 (State-of-the-art review)

Child
purpose of play: a framework for improving childhood health and psychological and physical development (Rippe et al) 1993;2:225 (Special article)

Communications media
talking to the press = talking to the people (Munnings) 1993;2:276 (Freelance article)

Coronary disease
exercise therapy for the secondary prevention of coronary artery disease from a physiologic point of view (Yoshioka and Okano) 1993;2:310 (State-of-the-art review)

Cystic fibrosis
response to progressive exercise in patients with cystic fibrosis and asthma (Inbar et al) 1993;2:55 (Original research)

Depression
Health consequences of caregiver stress (Wright et al) 1993;2:181 (State-of-the-art review)

Diabetes mellitus
role of carbohydrate in the diabetes diet (Wolever and Josse) 1993;2:84 (State-of-the-art review)
why do diabetic individuals eat so much protein and fat? (Anderson) 1993;2:65 (Editorial)

Dichotomous dining. *See* **Diet**

Diet
bacon or broccoli? (Morris) 1993;2:123 (Editorial)
cardiovascular risk reduction in a self-taught self-administered weight-loss program called the nondiet diet (Miller et al) 1993;2:218 (Original research)
dichotomous dining is a major food trend of the 1990s (Morris) 1993;2:239 (State-of-the-art review)
Fruit 'n' fudge (Stare and Witschi) 1993;2:237 (Editorial)
medically supervised weight loss (Lucas et al) 1993;2:284 (State-of-the-art review)
nutrition promotion and dietary change: framework to meet year 2000 goals (Winett et al) 1993;2:7 (State-of-the-art review)
nutritional intervention: how can we meet the "Healthy People 2000" goals? (Kristal) 1993;2:3 (Editorial)
relationship between aerobic fitness and dietary intake in adult females (Kano and Tucker) 1993;2:155 (Original research)
role of carbohydrate in the diabetes diet (Wolever and Josse) 1993;2:84 (State-of-the-art review)
use and validity of food frequency questionnaires in epidemiologic research and clinical practice (Feskanich and Willett) 1993;2:143 (State-of-the-art review)
why do diabetic individuals eat so much protein and fat? (Anderson) 1993;2:65 (Editorial)

Driving. *See* **Automobile driving**

Endurance. *See* **Physical endurance**

Epidemiology
use and validity of food frequency questionnaires in epidemiologic research and clinical practice (Feskanich and Willett) 1993;2:143 (State-of-the-art review)

Exercise
aging, cardiovascular function, and endurance exercise: a review of the literature (Green and Crouse) 1993;2:299 (State-of-the-art review)
anaerobic testing and evaluation (Gleim) 1993;2:27 (State-of-the-art review)
biochemical changes in skeletal muscle after a marathon race, as assessed by phosphorus-31 nuclear magnetic resonance spectroscopy (González de Suso et al) 1993;2:50 (Original research)
common running injuries seen in a podiatric sports medicine practice, part 2 (Blake and Ferguson) 1993;2:36 (State-of-the-art review)
dietary iron needs in exercising women: a rational plan to follow in evaluating iron status (Haymes) 1993;2:203 (State-of-the-art review)
evaluation of anaerobic performance (Bassett) 1993;2:5 (Editorial)
exercise prescription: necessary and not evil (Munnings) 1993;2:112 (Freelance article)

exercise therapy for the secondary prevention of coronary artery disease from a physiologic point of view (Yoshioka and Okano) 1993;2:310 (State-of-the-art review)
health clubs: a new resource for health promotion (Amend) 1993;2:170 (Freelance article)
physiological characteristics of national-class stair climbers (Hendrickson et al) 1993;2:269 (Original research)
prediction models for two measures of atherosclerosis from serum lipids of exercised and sedentary rabbits (Westerfield et al) 1993;2:213 (Original research)
response to progressive exercise in patients with cystic fibrosis and asthma (Inbar et al) 1993;2:55 (Original research)
stair-climbing exercise machines: lower-extremity kinematics and exercise intensity comparisons (Foti et al) 1993;2:162 (Original research)

Exercise test
cardiovascular disease risk factors and cardiorespiratory fitness: assessing the relationship in the field with the step test (McKenney et al) 1993;2:100 (Original research)
effect of interval-type exercise on excess postexercise oxygen consumption (EPOC) in obese and normal-weight women (Kaminsky and Whaley) 1993;2:106 (Original research)

Exertion
exertional heat illnesses: a risk of athletic participation (Armstrong and Maresh) 1993;2:125 (State-of-the-art review)

Fats
why do diabetic individuals eat so much protein and fat? (Anderson) 1993;2:65 (Editorial)

Females. *See* **Women**

Food industry
dichotomous dining is a major food trend of the 1990s (Morris) 1993;2:239 (State-of-the-art review)
Fruit 'n' fudge (Stare and Witschi) 1993;2:237 (Editorial)

Food intake
bacon or broccoli? (Morris) 1993;2:123 (Editorial)
relationship between aerobic fitness and dietary intake in adult females (Kano and Tucker) 1993;2:155 (Original research)
use and validity of food frequency questionnaires in epidemiologic research and clinical practice (Feskanich and Willett) 1993;2:143 (State-of-the-art review)

Foot
podiatric biomechanics: an integral part of evaluating and treating the athlete (Kirby) 1993;2:196 (State-of-the-art review)

From the editors
from childhood play to caregiver stress (Ward and Rippe) 1993;2:179
from the editors (Rippe and Ward) 1993;2:283
from the editors (Ward and Rippe) 1993;2:63
lifestyle medicine: more linkages, more resources (Rippe and Ward) 1993;2:121
Medicine, Exercise, Nutrition, and Health turns one year old (Rippe and Ward) 1993;2:1
from nutrition to communication (Rippe and Ward) 1993;2:235

Health
health consequences of caregiver stress (Wright et al) 1993;2:181 (State-of-the-art review)

Health clubs
health clubs: a new resource for health promotion (Amend) 1993;2:170 (Freelance article)

Health promotion
health clubs: a new resource for health promotion (Amend) 1993;2:170 (Freelance article)
nutrition promotion and dietary change: framework to meet year 2000 goals (Winett et al) 1993;2:7 (State-of-the-art review)
nutritional intervention: how can we meet the "Healthy People 2000" goals? (Kristal) 1993;2:3 (Editorial)

Healthy People 2000
nutrition promotion and dietary change: framework to meet year 2000 goals (Winett et al) 1993;2:7 (State-of-the-art review)
nutritional intervention: how can we meet the "Healthy People 2000" goals? (Kristal) 1993;2:3 (Editorial)

Heart disease
exercise therapy for the secondary prevention of coronary artery disease from a physiologic point of view (Yoshioka and Okano) 1993;2:310 (State-of-the-art review)

Heat exhaustion
exertional heat illnesses: a risk of athletic participation (Armstrong and Maresh) 1993;2:125 (State-of-the-art review)

Hip
stair-climbing exercise machines: lower-extremity kinematics and exercise intensity comparisons (Foti et al) 1993;2:162 (Original research)

Hormones
effect of boron supplementation on bone mineral density and hormonal status in college female athletes (Volpe et al) 1993;2:323 (Original research)

Information
talking to the press = talking to the people (Munnings) 1993;2:276 (Freelance article)

Injuries. *See* **Wounds and injuries**

Iron
dietary iron needs in exercising women: a rational plan to follow in evaluating iron status (Haymes) 1993;2:203 (State-of-the-art review)

Journalists
talking to the press = talking to the people (Munnings) 1993;2:276 (Freelance article)

Jumping
landing performance, part I: kinematic, kinetic, and neuromuscular aspects (Schot and Dufek) 1993;2:69 (State-of-the-art review)
landing performance, part II: assessment and future directions (Dufek et al) 1993;2:135 (State-of-the-art review)

Knee
stair-climbing exercise machines: lower-extremity kinematics and exercise intensity comparisons (Foti et al) 1993;2:162 (Original research)

Landing performance
landing performance, part I: kinematic, kinetic, and neuromuscular aspects (Schot and Dufek) 1993;2:69 (State-of-the-art review)
landing performance, part II: assessment and future directions (Dufek et al) 1993;2:135 (State-of-the-art review)
Leg
landing performance, part I: kinematics, kinetic, and neuromuscular aspects (Schot and Dufek) 1993;2:69 (State-of-the-art review)
landing performance, part II: assessment and future directions (Dufek et al) 1993;2:135 (State-of-the-art review)
podiatric biomechanics: an integral part of evaluating and treating the athlete (Kirby) 1993;2:196 (State-of-the-art review)
stair-climbing exercise machines: lower-extremity kinematics and exercise intensity comparisons (Foti et al) 1993;2:162 (Original research)
Letters
safe driving (Pitts) 1993;2:119 (Letter)
Lipids
prediction models for two measures of atherosclerosis from serum lipids of exercised and sedentary rabbits (Westerfield et al) 1993;2:213 (Original research)
Lower extremity. *See* **Leg**

Marathon racing. *See* **Running**
Muscles
anaerobic testing and evaluation (Gleim) 1993;2:27 (State-of-the-art review)
biochemical changes in skeletal muscle after a marathon race, as assessed by phosphorus-31 nuclear magnetic resonance spectroscopy (González de Suso et al) 1993;2:50 (Original research)
evaluation of anaerobic performance (Bassett) 1993;2:5 (Editorial)
Musculoskeletal system
cross-sectional study of age-related musculoskeletal and physiological changes in soccer players (McHugh et al) 1993;2:261 (Original research)

Nondiet diet
cardiovascular risk reduction in a self-taught self-administered weight-loss program called the nondiet diet (Miller et al) 1993;2:218 (Original research)
Nuclear magnetic resonance
biochemical changes in skeletal muscle after a marathon race, as assessed by phosphorus-31 nuclear magnetic resonance spectroscopy (González de Suso et al) 1993;2:50 (Original research)
Nutrition
dichotomous dining is a major food trend of the 1990s (Morris) 1993;2:239 (State-of-the-art review)
Fruit 'n' fudge (Stare and Witschi) 1993;2:237 (Editorial)
nutrition promotion and dietary change: framework to meet year 2000 goals (Winett et al) 1993;2:7 (State-of-the-art review)
nutritional intervention: how can we meet the "Healthy People 2000" goals? (Kristal) 1993;2:3 (Editorial)

Obesity
cardiovascular risk reduction in a self-taught self-administered weight-loss program called the nondiet diet (Miller et al) 1993;2:218 (Original research)
effect of interval-type exercise on excess postexercise oxygen consumption (EPOC) in obese and normal-weight women (Kaminsky and Whaley) 1993;2:106 (Original research)
medically supervised weight loss (Lucas et al) 1993;2:284 (State-of-the-art review)
Oxygen consumption
effect of interval-type exercise on excess postexercise oxygen consumption (EPOC) in obese and normal-weight women (Kaminsky and Whaley) 1993;2:106 (Original research)

PACE program
exercise prescription: necessary and not evil (Munnings) 1993;2:112 (Freelance article)
Phosphorus-31 nuclear magnetic resonance. *See* **Nuclear magnetic resonance**
Physical endurance
aging, cardiovascular function, and endurance exercise: a review of the literature (Green and Crouse) 1993;2:299 (State-of-the-art review)
physiological characteristics of national-class stair climbers (Hendrickson et al) 1993;2:269 (Original research)
Physical fitness
purpose of play: a framework for improving childhood health and psychological and physical development (Rippe et al) 1993;2:225 (Special article)
relationship between aerobic fitness and dietary intake in adult females (Kano and Tucker) 1993;2:155 (Original research)
Physical health. *See* **Health**
Play
purpose of play: a framework for improving childhood health and psychological and physical development (Rippe et al) 1993;2:225 (Special article)
Podiatry
common running injuries seen in a podiatric sports medicine practice, part 2 (Blake and Ferguson) 1993;2:36 (State-of-the-art review)
podiatric biomechanics: an integral part of evaluating and treating the athlete (Kirby) 1993;2:196 (State-of-the-art review)
Press. *See* **Journalists**
Proteins
why do diabetic individuals eat so much protein and fat? (Anderson) 1993;2:65 (Editorial)
Psychology
purpose of play: a framework for improving childhood health and psychological and physical development (Rippe et al) 1993;2:225 (Special article)

Questionnaires
bacon or broccoli? (Morris) 1993;2:123 (Editorial)
use and validity of food frequency questionnaires in epidemiologic research and clinical practice (Feskanich and Willett) 1993;2:143 (State-of-the-art review)

Racing. *See* **Running**
Research
use and validity of food frequency questionnaires in epidemiologic research and clinical practice (Feskanich and Willett) 1993;2:143 (State-of-the-art review)
Risk factors
cardiovascular disease risk factors and cardiorespiratory fitness: assessing the relationship in the field with the step test (McKenney et al) 1993;2:100 (Original research)
cardiovascular risk reduction in a self-taught self-administered weight-loss program called the nondiet diet (Miller et al) 1993;2:218 (Original research)
Running
biochemical changes in skeletal muscle after a marathon race, as assessed by phosphorus-31 nuclear magnetic resonance spectroscopy (González de Suso et al) 1993;2:50 (Original research)
common running injuries seen in a podiatric sports medicine practice, part 2 (Blake and Ferguson) 1993;2:36 (State-of-the-art review)

Safety
safe driving (Pitts) 1993;2:119 (Letter)
Shoulder
arthroscopic shoulder stabilization (Pagnani and Altchek) 1993;2:252 (State-of-the-art review)
Skeletal muscle. *See* **Muscles**
Soccer
cross-sectional study of age-related musculoskeletal and physiological changes in soccer players (McHugh et al) 1993;2:261 (Original research)
Sports
basketball injuries to the ankle (Lowe) 1993;2:247 (State-of-the-art review)
biochemical changes in skeletal muscle after a marathon race, as assessed by phosphorus-31 nuclear magnetic resonance spectroscopy (González de Suso et al) 1993;2:50 (Original research)
common running injuries seen in a podiatric sports medicine practice, part 2 (Blake and Ferguson) 1993;2:36 (State-of-the-art review)
cross-sectional study of age-related musculoskeletal and physiological changes in soccer players (McHugh et al) 1993;2:261 (Original research)
dietary iron needs in exercising women: a rational plan to follow in evaluating iron status (Haymes) 1993;2:203 (State-of-the-art review)
effect of boron supplementation on bone mineral density and hormonal status in college female athletes (Volpe et al) 1993;2:323 (Original research)
exertional heat illnesses: a risk of athletic participation (Armstrong and Maresh) 1993;2:125 (State-of-the-art review)
physiological characteristics of national-class stair climbers (Hendrickson et al) 1993;2:269 (Original research)
podiatric biomechanics: an integral part of evaluating and treating the athlete (Kirby) 1993;2:196 (State-of-the-art review)
Stair climbing
physiological characteristics of national-class stair climbers (Hendrickson et al) 1993;2:269 (Original research)
stair-climbing exercise machines: lower-extremity kinematics and exercise intensity comparisons (Foti et al) 1993;2:162 (Original research)
Step test. *See* **Exercise test**
Stress, psychological
Health consequences of caregiver stress (Wright et al) 1993;2:181 (State-of-the-art review)

Weight loss
cardiovascular risk reduction in a self-taught self-administered weight-loss program called the nondiet diet (Miller et al) 1993;2:218 (Original research)
medically supervised weight loss (Lucas et al) 1993;2:284 (State-of-the-art review)
Women
dietary iron needs in exercising women: a rational plan to follow in evaluating iron status (Haymes) 1993;2:203 (State-of-the-art review)
effect of boron supplementation on bone mineral density and hormonal status in college female athletes (Volpe et al) 1993;2:323 (Original research)
effect of interval-type exercise on excess postexercise oxygen consumption (EPOC) in obese and normal-weight women (Kaminsky and Whaley) 1993;2:106 (Original research)
relationship between aerobic fitness and dietary intake in adult females (Kano and Tucker) 1993;2:155 (Original research)
Wounds and injuries
arthroscopic shoulder stabilization (Pagnani and Altchek) 1993;2:252 (State-of-the-art review)
basketball injuries to the ankle (Lowe) 1993;2:247 (State-of-the-art review)
common running injuries seen in a podiatric sports medicine practice, part 2 (Blake and Ferguson) 1993;2:36 (State-of-the-art review)
